    - Problem Solving
    - Adaptability
    - Strong Work Ethic
    - Collaboration
    - Ease of Teamwork
  - Agile Development with Scrum
  - TDD (Jest)

## Experience

---

- **Internship as Software Developer at Núcleo de Práticas de Informática (UFC - Quixadá) - 2016**
  - During the internship, our team worked with the development and maintenance of two web applications, the first one for the book purchases management and the another one for the frequency control of interns. Always using the good practices in the software development process and Scrum's practices such as: Pair Programming, Daily Meetings, Sprints Retrospective, etc.
- **Internship as Front-End Developer at OSF Summer Internship (Quixadá) - 2019**
  - In this internship, during one month I worked on a implementation of a fake e-commerce's website proposed by OSF's staff. In this project, I was able to put all my front end development skills (HTML5, CSS3, JS (ES6), SASS, JQuery) and also my soft skills (Problem Solving) into practice. By the end of the internship I could note that my English skills were also improved due to daily writing and weekly listening and speaking meetings via Skype with our tutor Anderson da Silva.

## Education

---
